#### POINT CALCULATIONS AND VALID CATCHES

##### 1- The point calculation will be done in two phases:

###### Phase 1 Classic Points

- in groups I, II, III and IV, scoring is done by attributing one (1) point per gram of each valid fish. For the fishes in groups I, II, III and IV, the maximum amount of points for weight is **12500** points per single fish. All fishes belonging to same group are weighed together
- For the "Biggest fish" trophy only valid fish from groups I, II, III and IV will qualify. The trophy will be awarded to the competitor who catches the heaviest fish.
- There are three types of bonus points applied:
  - 1 – The bonus for each valid catch is a # of points = minimum weight
  - 2 - There will be an extra bonus per different species = 300 points X # species
  - 3 - Bonus for completing quota of catches of species = 600 points X quota completed
- Penalty will be applied for fish weighing less than 2/3 of the specific minimum weight. Penalty points are equal to the minimum weight grams of the species.

### 4. PROTEST

A written protest **must be announced to** the jury of the competition within 15min after the competition day has ended, or after final results are announced. Protest fee is 100€ which will be returned in case of acceptance of the issue (see details in header 13.)

### 5. STATEMENT OF LIABILITY

Participation in the Euro-African Championships takes place at athletes' own responsibility.

The hosting federation is not liable for personal or material damage.

### 6. PLACE

Helsinki, Finland

### 7. COMPETITION

The Base Port will be in the VIRON ALLAS, behind the old Market Hall at Helsinki harbor

Competition time is 6 hours per day.

Only the International Judge or the Competition Director may decide, by mutual agreement, any change in the competition areas if necessary. In case of disagreement the CMAS International Judge will make a decision.

A count of participants and confirmation will be made before leaving the harbor to competition area. All boats must follow the Competition Director boat back and forth the competition area.

Once arrived at the competition area, there will be a new recount of participants and the time for starting and finishing the fishing event will be communicated. The meeting point and the margins of time to pass the control once the fishing time expired will also be communicated at that moment.

Only in the event of adverse meteorological (whether or sea) conditions, and the Security coordinator informing previously the CMAS International Judge, will decide the partial/total cancellation of the fishing event. The CMAS International Judge has total autonomy and responsibility for canceling totally or partially any fishing event, for any organizational issue or due to weather conditions, even reducing the time or the fishing area.

If the competition had to be cancelled owing to circumstances beyond our control or adverse meteorological conditions, the championship would be only valid if 2/3 of the time of event has been completed. The competition consists of two consecutive days of 6 hours each. The beginning and the ending of every fishing event will be communicated by radio or mobile phones. The boatmen/commissioners will inform about the ending to their fishermen. The fishermen must get on board when informed about the ending. Competition areas A and B and the gps points:

Full scale map can be found:

<http://www.nordicspearfishing.com/helsinki2013/>

NOTE1: GPS points mark the area only partly as natural borders as small islands give the exact border. There is no reserve zone as both of the areas hold plenty of islands to give cover in case of a bad weather.

NOTE2: The competition areas are partly on the military area and partly natural reserve so there are several islands and areas that must not be approached without official permit. Before teams enter the competition areas (for scouting) they must consult competition organizers

NOTE3: All wrecks in the area are protected by Finnish law and must be approached cautiously; do not move any items from wrecks nor make any damage

NOTE4: In the area can be found potentially active ammunition from WW2 and military training. Do not touch any metal objects found on the bottom. Report the suspicious findings to organizers.

NOTE5: There are fairways inside the competition area with high speed ferries cruising. Diving on fairways or unnecessary staying with boat on fairways is prohibited.

NOTE6: There are many shallow areas with under water rocks. It is the boat driver's decision to choose the route to wanted location

NOTE7: There are large ferries cruising close to competition area and they cause big surge and waves. It is the boat driver's decision to choose the place safe to stay when ferry is passing. For same reason anchoring of the boat should not be done closer that 25m from rocks or ashore.

## 8. BOATS

The SUKELTAJA ry (championship organizer) will supply official boats if required. Boats will be given by drawing. The participants who bring their own boats can use them in the competition.

In the event there are not enough boats for all Captains, they will be free to be in any boats of their own competitors as the only alternative to be in competition zone.

The boatmen act as commissioners. In case of breakdown, the boat will be replaced if possible. Complaints about the substitute boat will not be accepted.

National Teams, which bring their own boats, must attach a written notice when registering including the boat register number, model and owner. It will be authorized boats with 150 HP maximum power. Commissioners will be assigned to these boats by drawing. The CMAS International Judge will select the commissioners for the Finnish participants among other nations possible commissioners. Each official boat will be assigned a reference number the same as the fisherman. It will be a reference number when using the radio signal transmitter or cell phones during the competition. Competitors are not allowed to change their boat.

National teams that require an additional boat for their managers (Team Captains are not allowed to be in this boats) must request it when registering. But the organization is not obligated to organize these boats.

## 9. ALLOWED EQUIPMENT

Only allowed to use the following equipment:

One or more spear guns of rubber bands or compressed air, using athlete's muscular effort. Fins, masks, snorkels, torches, weight belt, spears and hooks, knives, neoprene wetsuit, gloves and dive computer, GPS, fishing sonar, radio transmitters, mobile phones and a complimentary official buoy with the register number (10 litres minimum)

It is forbidden:

Carrying fish in the belt or any other place than the buoy or the boat.

Have loaded speargun on board.

Have loaded spear gun hung on buoys.

To take any fish from the nets or take the dead fish. All fish will be check during the fish weighting.

## 10. HELSINKI LEGAL REQUIREMENTS FOR TRAINING SESSIONS

STATEMENT OF LIABILITY. Participation in the Euro-African Championships takes place at athletes' own responsibility. The hosting federation is not liable for personal or material damage.

Teams that fish or simply dive in Finland waters during the training sessions (any time before the competition) must apply to organizers (SUKELTAJA ry) for a Federative fishing license. The federation fishing license (1 week) is included in the registration fee. But it is each teams responsibility is to ask the

official documents before starting training sessions. These formalities are necessary even fishing is not practiced during the training sessions. Spearguns are allowed in the boats if after or before the scouting the teams wish to go fishing outside of the competition areas. In Finland you have to stay away 100 meters distance from any fishing nets or private docks or houses in the coast line. Each boat must have visible minimum 50x50cm blue and white diver flag on the boat.

Organization is not responsible for any inconvenience caused by Coast Guard or authorities controls if competitors do not obey the existing Finland's legislation.

During the competition days competitors are not covered by the SUKELTAJA ry.

21 days before the competition session inside of the competition zones it is forbidden to train or do examining activities using spear guns, scuba diving breathers or underwater scooters.

Competition areas will be closed the day before the competition session (27.6 Thursday 21 pm) and it is totally forbidden to go inside of the competition areas during the Friday 28.6

Competition area includes the military areas. They are well marked at the competition maps with green line. Training session inside of the military areas are opened 14 days before the competition. Training in these areas means that all the people at the official training boats must have official permit to enter these areas identification documents with them (organizers will apply the permissions). It is totally forbidden to land on any islands inside military area. These military areas are never spearfished before. So it is great opportunity all competitors. Each team must provide the name lists of all members in delegations that are going to enter military areas at any point (Full name, passport number, date of birth, nationality, place of birth, occupation)

All the possibility spearfishing training areas are also informed at the

<http://www.nordicspearfishing.com/helsinki2013/>

Training sessions have to be done only in these areas.

## WARNING!!

Inside of the archipelago many waters are owned by private owners. It is forbidden to do spearfishing without their approval. The national fishing license doesn't allow fishing in the private areas.

During the competition the Commissioners are responsible for participants to keep the Law. Fishing and diving in the private waters and without permission is not allowed. Private, military and natural reserves will be marked clearly in a map provided to the teams.

Green line on the official map lines the military areas!

## 11. FINAL CLASSIFICATION

Individual classification: It will be determined by the sum of the two days punctuation and it will be expressed on percentage. In case of punctuation draw it will count the higher number of valid captures, if equality is maintained it will count the biggest capture.

National Teams classification: It will be determined by the sum of the two days punctuations of every nation competitor and it will be determined on percentage.

## 12. DISCIPLINE

Every member from the registered teams is expected to know and respect the competition regulations. Judges and commissioners have the right to intervene in case of breaking the regulations.

## REGULATORY CONTROL

### The International Judge

In the CMAS Championship, the International Judge is elected by the Fishing Commission and approved by the CMAS Board of directors. He has full Powers and authority on judges, commissioners and organization staff until the publication of the official results. He must approve their election and give them instructions about the competition specific regulations. International Judge objectives are:

- a) Inspection of competition facilities.
- b) Boats commissioners and boats drawing.
- c) Confirming and signing the classification before the publication.

The International Judge must apply the Regulation and the CMAS decisions and resolve all emerging doubts, which are not included in the Regulation. He must check that all the commissioners are in their position and appoint substitutes or remove the incompetent ones. He can also appoint new officials if necessary.

The International Judge gives the starting signal once the Judge members (commissioners, organization and security members) are in their positions and ready. The CMAS International Judge can cancel the competition without consulting it with the competition director or the organization:

- On any adverse meteorological circumstance or security reasons (after consulting with the security coordinator).
- If competition areas or facilities do not fulfill regulation requirements.

#### International Jury

A unique member constitutes it, the CMAS International Judge, appointed by CMAS and elected by the Spear fishing Commission. The Jury aim is to examine the complaints and take a decision. International Jury decisions cannot be appealed except that new piece information comes up. Decisions must be communicated in writing immediately. The CMAS delegate will act as secretary if necessary, without having the right to vote. The CMAS International Judge, functioning as International Jury, will be assisted (if required) by a Competition Committee formed by the Competition Director and 3 team Captains (who do not compete) appointed by the International Judge.

The functions and responsibilities of the Competition Committee are advising and supporting the International Judge whenever is required. The committee will not take a decision except in case of The Judge inability.

#### REGULATION INTERPRETATION

In cases not included in this specific regulation, the CMAS International General Regulation for spearfishing competitions will be applied.

#### ANTI-DOPING CONTROL

According to the Finnish Anti-doping Agency, the control might be made whenever during the Championship.

#### RESPONSABILITIES

The world Submarine Activities Confederation CMAS, the Organization Federation, the Competition Director, the Commissioners and all related members will not held responsibilities for accidents or equipment lost that may occur before, during and after the championship to participant or third parties.
